### CS-M1 Short Shotgun Microphone

Small and unobtrusive, 4" long (101.6 mm), ultra-compact 2 oz (56.7g) housing, yet with good "reach" and the highest quality sound, the Sanken CS-M1 lends itself to live events of all sorts. Uses standard 19mm accessories. 48 volt phantom power required. Matte Black.

- Only 4" in length
- Ideal for camcorder mounting
- Lightweight 2 oz (56.7g)
- Sharp directivity
- Unique capsule design
- Increased immunity to RF interference
- Improved sensitivity and lower noise
- Wide 50Hz-20,000Hz response
- Quick power-up
- Accepts high sound pressure levels
- Rugged design

Model	Description	List/Map
CS-M1	Short Shotgun Microphone	\$ 895.00

Above model includes these accessories:

**WSM-1** Foam Windscreen

#### CS-M1 ACCESSORIES

<b>WSM-1</b>	Foam windscreen, Black	\$ 36.00
<b>KS-M1</b>	Microphone shock-mount	\$ 92.00
<b>KG</b>	Universal handgrip for shock-mounts. Attaches to pole	\$ 65.00
<b>KGW</b>	Wired handgrip. As above but wired with cloth	\$ 100.00

### CS-1e Long Reach Short Shotgun Microphone

Innovative technology in a short 7" long (181.5 mm), ultra-compact 2.9 oz (82g) housing, this model features a uniquely long reach, extended low frequency response, and low noise. Specifically designed for event DV as well as the film and television industries, it is ideal for mounting on video and film cameras. It is easy to maneuver on boom poles and is also effective as a handheld shotgun mic. Sharp directivity delivers highly targeted sound while eliminating background noise through off-axis rejection. Uses standard 19mm accessories. 48 volt phantom power required. Matte Black.

- Long Reach, only 7" in length
- Ideal for camcorder mounting
- Lightweight 2.9 oz (80g)
- Sharp directivity
- Unique capsule design
- Increased immunity to airborne electrical interference
- Improved sensitivity and lower noise
- Wide 50Hz-20,000Hz response
- Quick power-up
- Accepts high sound pressure levels
- Rugged design
- Natural sound

### CS-2 Long Reach Shotgun Microphone

Innovative technology in a standard 10" (250 mm) length, compact 3.9 oz (110g) housing, this model features an unusually long reach by using a unique audio tube length and proprietary capsule design. As a result, a rich, natural tone quality is reproduced. It is easy to maneuver on boom poles and can be camera mounted. Sharp directivity delivers highly targeted sound while eliminating background noise through off-axis rejection. Uses standard 19mm accessories. 48 volt phantom power required. Matte Black. High Boost Switch compensates for windscreen attenuation

- Super long reach, only 10" in length
- Rich and natural sound
- Lightweight 3.9 oz (80g)
- Very sharp directivity
- Unique capsule design
- Increased immunity to airborne electrical interference
- Improved sensitivity and lower noise
- Wide 50Hz-20kHz response
- Quick power-up
- High boost switch (+3dB @ 8kHz)
- Standard XLR3 connector

### CSR-2 Long Reach Shotgun Microphone

Long-reach, highly directional shotgun microphone with switchable rear rejection in a standard 10" (170 mm) length, 0.66" (22 mm) diameter, compact 6 oz (170 g) housing. Rich, natural tone with wide frequency response. The Sanken CSR-2 combines the long acoustic tube and proprietary rectangular capsule design of the CS-2 for super-sharp directivity with the unique switchable rejection of the mid and low frequency range on the side and rear as known from the industry standard CS-3e. In the "rear rejection off" position, the microphone provides a wider image and a warmer room tone.

- Super long reach, only 10" in length
- Suppresses background sensitivity using Sanken's exclusive rear cancellation technology
- Proprietary rectangular capsule design for compact, super-sharp directivity
- Flat frequency response 70Hz to 20kHz
- Easy to handle and operate using 48V phantom power
- Quick power-up
- Standard XLR3 connector

### CS-3e High Rejection Shotgun Microphone

Innovative technology in a standard 10.6" (270 mm) length, 4.25oz (120g) housing, this model features excellent side and rear rejection to help capture only the targeted dialogue with little ambient sound. Three directional capsules are arranged in a front-back array to combine line microphone performance and second-order pressure gradient response in a single system. This unique design makes the CS-3e an excellent choice for use in noisy and reverberant environments. Sharp directivity delivers highly targeted sound while eliminating background noise through off-axis rejection. Uses standard 19mm accessories. 48 volt phantom power required. Matte Black. Low Cut Switch compensates for wind or other vibration.

- Unique three-capsule design
- Super Sharp Directivity
- Extremely low proximity effect
- Long reach
- Only 10.6" in length
- Wide 50Hz-20kHz response
- Low-cut switch (-3dB @ 100Hz)
- Clear and natural sound
- Standard XLR3 connector

### CMS-10 Camera Mount M-S Stereo Shotgun Microphone

Uses an M-S design to provide stereo or mono audio signals with superior frontal directionality and a rejection of sounds from the sides and back. It is ideal for noisy shooting situations or reverberant environments. The built-in Mono/Stereo switch allows output of a highly directional mono signal to both L/R channels or a L/R stereo signal. The supplied suspension camera-mount suppresses vibrations from both camera and operator movement.

•Mid-Side design •Switchable mono or left/right output •Matrix built in •Optimized pattern •Low proximity effect •Compact size 8.3" (211mm), 6 oz (170g) •Attached 10" (.26m) cable with standard XLR5 connector •Matte Black finish

Model	Description	List/Map
CMS-10	M-S Stereo Shotgun Microphone	\$ 2,500.00
