### CUB-01 Miniature Cardioid Boundary Microphone

Offers a totally new design- a Sanken original - which overcomes the limitations of previous boundary microphones, producing an extremely rich and full bodied sound in a much smaller package. Although very small (1.26" diameter, .5" tall), and weighing only 1.6oz., the sound is superior to much larger boundary types. The CUB-01 is designed for use in many situations like film and television production on set or on location, in a conference room, or on a podium. Especially effective in an automobile, this microphone has become a favorite for production professionals.

CUB-01-	BE, GY	Miniature Cardioid Boundary Microphone, 48V Phantom(+/- 4V, 3.0meter cable, XLR3M connector, Beige[BE] or Gray[GY]	\$ 489.00
