<b>HAD-48</b>	<b>INLINE AMPLIFIER (DYNAMIC MICROPHONES ONLY)</b> The HAD-48 amplifier provides selectable gains of +20dB or +40dB to boost signal levels from low-output devices, such as dynamic mics. The result – a much improved signal-to-noise ratio even over long cable connections. The HAD-48 features an XLR-style barrel (XLR-3M - XLR-3F) just 4.14” long. Requiring no batteries, it operates with 48V phantom power and draws less than 4.5mA. The microphone is isolated from the phantom power.	\$ 239.00

### LIST PRICING

APRIL 15, 2023

<u>MODEL</u>	<u>DESCRIPTION</u>	<u>MSRP / MAP</u>
<b><u>CUB-01</u></b>	<b>MINIATURE CARDIOID BOUNDARY MICROPHONE</b> Offers a totally new design - a Sanken original - which overcomes the limitations of previous boundary microphones, producing an extremely rich and full-bodied sound in a much smaller package. Although very small (1.26" diameter, .5" tall) and weighing only 1.6oz., the sound is superior to much larger boundary types. The CUB-01 is designed for many situations like film and television production on set or location, in a conference room, or on a podium. Especially effective in automobiles, this microphone has become a favorite for production professionals.	
<b>CUB-01</b> <i>[RF, GY]</i>	Miniature Cardioid Boundary Microphone, 48V Phantom(+/- 4V, 3.0meter cable, XLR3M connector	\$ 489.00
